D
PM numerical floor (100 steps, 7LPT ICs at D = 0.15; §14.2)
one loop (3LPT), short×short
two loop short×short (5LPT − 3LPT)
≥ three loop short×short (7LPT − 5LPT)
long×short, perturbative (7LPT: a=1 − a=0)
beyond PT, short×short (PM − 7LPT, a=0)
beyond PT, long×short (PM − 7LPT: a=1 − a=0)
